Please write us with suggestions and comments, Jan 29, 2022 Version 11.1 Bug fixes and performance improvements. Hello there! I've found your app very helpful and enjoyable in naming fictional characters in my stories. The only thing I think it needs is a better way to organize the names you've picked as your favorites. You're able to move and shift the place of the names in your list, but I'd rather have the app just give options on how to organize them automatically: alphabetical, newest to oldest and vice versa. Having to manually organize the names in your favorites list is rather time consuming, and since I can barely remember yesterday (thus don't operate on the newest to oldest mode), I prefer to have the names in the list organized alphabetically so it's easier to locate what I'm looking for. Making that a default feature in the app would be very helpful and welcomed to me and maybe some other people who are like me. Thank you for making the app, as I said it's very helpful and fun, and I hope this review is helpful for you guys as the developers for future updates (I'd prefer this feature to be free though since it's rather small and not something I'd really want to pay money for). Thanks again, and hope you have a great rest of your day! This is a nice name app, I haven't found a name that wasn't in it. It has the origins of the name and the meaning (most of the time). It also has how to pronounce the names, but that's basically a joke. You'll have all of that if you pay for the 1.99 update. If you don't, then all you have is names. No definitions. Not Free!! really do enjoy this app, I use it to find names for characters in my stories and have been pleased by it. It has a large database of names that you can search using a mix of filters including rarity, length, and meaning. Overall I recommend it, since I've found it to be better than the myriad of baby-naming websites I've used in the past. Don't usually review. Don't usually see much utility with most apps I download. This one though, I had been playing with for about a month. Just perusing the different aspects of it. Saving names and checking origins and dbl checking them with other resources. Then... I ran outta time. A short months time later, My son was born. Healthy, Beautiful & in desperate need of a name. So with it being down to the wire and we being in the process of getting ready to leave the hospital, I pulled out this app, in less than 10 minutes and the added weight of time and money bearing on us. Me & my wife decided a name as painlessly as pulling off a wet Bandaid. Go figure. I know full well that this review is not gonna help a lot of people. Though if you enjoyed this review, That's all that matters. —God Speed Benji Boya— Love Dad— The developer, DexCheck, LLC, indicated that the app's privacy practices may include handling of data as described below.
